Fresh Trades. Long 66.30. Lat 25. East Course N by E and West.

Sunday 17

Moderate Trades. Course W by North opened a cask Bread

Monday 18

Fresh Trades. put new thwart into a boat. fitted new fit pennants. Net hole. Skimped Ship &c.
Longitude 61.45 Latitude 25.32. Course W by N.

Tuesday 19

Fresh Trades. Sent down. Mizen Topsail. patched and rebent it. Got a Lunar Distance. Long 59.57. Lat 25.5.2 Course W by N.

Wednesday 20.

Fresh Trades with occasional Squalls of rain. Sent down the fore & Spencer mended and rebent it. mended a hole in the fore Topsail
Course NW by N Long 54.50

Thursday 21

Fresh Breezes first part from the N.E. middle and latter part Moderate. Wind N by E. fitted new Main Topsail Sheets out of tow line. Course NW by N

Friday & Saturday 22 & 23 1857

Light breezes. Cloudy. Squalls &c at 6 P.M Saturday took a fresh breeze from the South East made all sail crew employed making (cynet) cynnet. Set hole— got out a Barrel Pork. Caught two Land Birds

Sunday 24

Light Winds from the South East Caught a Shark. Latter part fresh breezes. Lay 50 54 Course N.N.W.

Monday 25

Fresh Breezes with squalls of rain in the morning Middle and latter part pleasant, at 8 P.M made the land. took in all the light Sails. furled the Main sail laying off and on all night

Tuesday 26

At daylight Made all Sail 6 Obs. yesterday at 12 30 Miles to the Northward. Kept Ship off and at 12 found by Observation we were to leaward of the port. took in the Studding Sails and furled the Main Royal, and Mizen top gallant Sails and hauled the Ship on the wind standing off Shore at 4 P.M tacked Ship at 7 P.M the weather looking squally in Shore tacked Ship Standing off S.E. at 8 passing a black cloud passed over and Blew succeeded by a very gentle breeze which soon increased to a violent squall close reefed top gallant sail, settled away top sails, hauled up fore and Main Course. hauled down the J.C. close reefed Main topsails. furled the Mizen topsail. reefed the fore sail and Kept Ship off S.E. & S until 2 A.M Wednesday when the wind dying away hauled the Ship to the wind at daylight Made all Sail. the Chain plate of the ~~forward~~ Starboard fore topmast backstay Chafed off, at 9 A.M lowered for a school of Bonetta fish got one to the Larboard boat at 12 A.M squally in Shore, close reefed fore topsail after clewing up top gallant sails, at 8 P.M. Squalls from the South West, at 5 furled Mizen topsail and close reefed the Main. Set hole and pumped Ship.

8, Thursday. Fresh breezes and Cloudy.

Friday 29, 1837

The Weather clear with a fresh breeze ran in for Port Dauphin and came to anchor at the head of the bay. Capt Pease went ashore in the Larboard boat. in 11 Fathoms 11 Fathoms

Sent down top G. Yards 30 Saturday

Squalls of rain. Scraped the ships sides, a boat went on shore at the upper part of the bay, the boat came up from the fort brought two goats and some very excellent sweet potatoes, a boat went down to the fort in the afternoon.

31 ——— 1837

At 6 A.M. the boat came up from the fort brought a barrel salt beef and three bbl potatoes, Capt Pease came up. Mr Norton went on shore to find a watering place, found none convenient. Coopered casks and sent them ashore got 6 pipes filled, had to roll them some distance over the stones, brought them off — stowed them between decks. At 1 P.M. sent a boat ashore to the fort. Capt Pease went down, and this day has passed for the Sabbath, and the last day of the year — Reflections at a future time — also Made four bags

January 1. 1838.

Strong winds. Back Newton of Bedford came in and hove aback Capt Hathaway came on board hails all full and 6 ft sperm Whales in about the same longitude we left 76° 7'. he worked to the Westward we to the Eastward, had his second mate Killed by a whale, boats crew on shore at the fort.

Monday 2 Tuesday

Got 6 Boat loads of wood at the upper end of the bay. getting accounts on board Capt Pease came up from the fort this morning. went back this afternoon, blowing very fresh

Jany — Wednesday 3. 1838

at 1/2 past 3 A M two boats went down to the fort for potatoes got back at 8 A.M. some talk of goin to sea to day went ashore for 2 pipes wash water, and more grass. the two Bullock from town were driven up on the beach but we could not get them from the natives at the village. at 3 P M the Ships Sally Ann, and North America of Wilmington, Delaware, came to Anchor. both full. filled up in Longitude 69 and 70. left plenty Whales. wrote letters home, Captains Colt and Cox went down to the fort. repaired the Mizen Top gallant Sail. blowing fresh all night.

Thursday 4 1838.. —

The boat came up from Town, Capt P. did not come up brought up a few Potatoes, a pig. two bags beans. blowing fresh. gammed with the Ships. (N E by E Wind) got the two Bullock aboard this morning

Friday 5, 1838

Capt Pease came up from Town. brought three goats a bullock is to be driven up by land. at 6 P M while at supper the chain parted. hove in the chain. loosed Topsails, Sheeted home. & double reefed them. Stood off and own all night. (6) ran in, in the morning but the breeze was so fresh that we could not come too with our stream.

Saturday 6

Lying off and own all night ran in in the morning blowing fresh could not do any thing towards getting our Anchor. Capt Pease went ashore for a bullock did not get one. got a piece of rigging from the North America

Sunday 7

Lying off and own all night. a moderate breeze in the morning ran in. lowered a boat got up the buoy Rope and bent on about 25 fathom of Lanyard stuff took the end on board. but the Ship drifting off very fast did not get a turn with it. lost all anchor. part of a wind tackle fall. and the Lanyard stuff. put off for the South after exchanging a man with the Sally Ann— got a keg of Powder and another coil of Lanyard Stuff from the S[illegible]

Sam'y Monday 8. 1838

Strong breezes, running SW by W and WSW by S. Made Studding Sails
Sent the Main Royal Yard aloft, Saw several Schools
of Porpoises.

Tuesday 9. 1838

Light Breezes from the Eastward Course WSW by S. drawing
Yards, fitted pennants to the fore yard and tore
new Braces, put out and the boat, and took in
the boat on the Starboard Cranes,

Wednesday 10

Drawing Yards, fitting Watch tacks Sheets
for Main Braces, first part Light Breezes. At 11
A.M. had a violent squall of wind and rain,
took in Studding Sails. Clued up & down to Spgallant
Sails and Topsails, furled Top. G. Sails, double
reefed Topsails, took the waist boat in and
unlashed her, put her out again,

Thursday 11

Fresh breezes, fitting Main Braces, & lifts
Making 2 Spun Yarn, at 4 P.M. Saw a large
Beach, raised a sail standing N.W. (Lat 27)

Friday Wednesday 12

Making 2 Spun Yarn, doing various jobs about
the rigging, standing to the Westward with the
wind from the Southward, Sent out Studding Sails
at 7 P.M. the wind hauling to the Eastward

Saturday 13.

Light breezes from the south East. Sent down
Fore Topsail and mended it, observed saw a
sail standing W.S.W. making 2 Spun Yarn.
at 9 P.M. wind hauled East. Set down Studding Sail

Sunday 14

Commenced with light breezes from the Eastward, at 8 A.M.
took in the lower Studding sail and repaired it. just before
it was finished the wind hauled to the Southward, so that the
Studding was of no use, so much for a Sunday Job. Lat 31.11
at 8 P.M. took in Fore Topmast & J.J. G. Studding sail

Monday 15. 1838

Light Breezes from The SE. Set up the Main Top Gallant Rigging. Sent down Main Royal yard. Making Spun Yarn. took the anchor off the bow and Stowed it on the Fore Castle. Set the Fore top Mast and fore T.G. Studding sails, repaired the Main Royal, fitted new jib Whips. Boat Steerers setting up Craft. at 10 P.M. Set Lower Studding Sail, Course SW. wind ESE. Lat by Observation 32,22

Tuesday 16 1838

Light Breezes from the Eastward Course SW. Lat by Obs 34.30. Bent a jib, repaired a jib, doing various jobs on the rigging. Course SSW.

Wedensday 17.

Light breezes from the Eastward. Shifted over the Studding Sails, broke out for water, Sent in fore Topmast Staysail: repaired and rebent it, Shifted Studding Sails over to Larboard. Course SSW. Lat 36-11 S. Long 37.16 (Allen) foremast hand mending shoes for all hands

Thursday 18

Light breezes, wet hole, Capt ~~Pease~~ flogged Joseph ~~De Roderick~~ for drawing a Knife at one of the hands, took the boat down from over head and repaired her Shifted studding sails over at 2 A.M. Course SSW. Lat 37.12 at 7 P.M. clouded up at 8 took in Studding sails and braced up the yards with Larboard tacks aboard, rain.

Friday 19

Fresh Breezes from the Northward. fitting pikes & Gafts. took in the lower studding sail booms. Sent fore topgallant studding sail boom. down. unbent the studding sails Saw ~~a~~ large breaches and a spout off the Larboard beam ran for it. hove aback. but saw nothing more, mended the close Mizen, Course SSW. Lat 38.10 S Long 37. East. at 9 P.M. took in fore topmast studding sail, and furled the topgallant sails. single reefed the Mizen Topsail. rainy.

Saturday 20. 1838

First part Moderate. middle part squally & rainy took in sail. Wind S.W. latter part a Gale

Sunday 21 1838

At 5 A M saw ship, with fish Boats from the S E. Shook a reef out the fore sail and fore & main topsails at 9 P M. the wind hauled round E. & E. Lat 40. 2.

Monday 22.

Blowing fresh, and rainy, contrary winds. nothing doing—

Tuesday 23

At daylight fine weather. Saw Whales. lowered three several times, first time gallied the whales. Second & third broke first Iron and drawed the second Iron, had luck for the last Boat, lowered away again at 1 P.M. chased three Whales got slightly fast to a Small Whale drawed Came on board. at 7 P M took in sails.

Wednesday ~~Monday~~ 24

Began with fresh breezes from the Northward, made double reefed Topsails. at 7 A M took in Mizen Topsail. Saw one whale. blowing a Gale. at 6 P M took in fore topsail. and close reefed the Main.

Thursday 25.

Light Breezes and rainy. at 8 A M shook reef out the Main Topsail and the reef out the foresail. at 1 P M made all sail. Moderate. at 7 P M double reefed Topsails and furled the Mainsail.

Friday 26.

Running off with a fine wind for Prince Edwards thick and hazy. Clear'd for a short time in the afternoon. and then shut in again. at 7 took in sail. at 8 P M furled the reefed foresail blowing a gale of wind at 12 Mid night hove Ship too on Starboard tack. heading S S W. Wet holes Lat 44. 8 [illegible]

Saturday 27

Began with a severe gale at 1 P M Moderated and made double reefed fore & Mizen topsail & Mainsail at 3 P M unbent the Mainsail and stowed it below. at 6 P M close reefed fore topsail. Lat 45. 8 Long 38—

January Sunday 28. 1838

First part Moderate & y A.M. foggy at 8 Cleared away at 10 A.M. saw off for the land supposed to be f.S.E. Sawa fin Back. Lat 45.58. at 3 P.M. made the longitude 39.14 at 5 hauled close on the wind no land in sight. took in sail heading N.W½W. — Bent the old foresail for a M. Sail

Saturday 29. Monday

First part Light breezes and rainy. at 4 P.M. wind hauled from the N.E to the South. hauled round the yards. heard Penguins round the Ship before daylight. Saw several during the day. Middle part wind hauled S.E½S. — three points Eastern Variation. at 9 P.M. began to break away at the Southward and ceased raining. the wind hauled to the Southward again. at noon judged the land to be 20 Miles distant. — There appeared to be a strong current setting to the eastward. furled the main fore sail and hauled up the Mizen and main Spencer. hailed down fore top mast Staysail.

Tuesday 30.

First part Moderate at 6 Made Sail at 8 A.M. the wind from the Northward with rain took in sail at 11 Standing Southward Saw the Island. Made Sail, the weather having cleared. Saw several fin Backs which were at first supposed to be right Whales. at ¼ past 3 P.M. sent a boat in shore. landed at Johnson's Cove where a gang of men 11 in number have been taking in sea Elephant. the Island is volcanic, there being full evidence of an irruption not many years since. there are immeasurable numbers of birds of various species on the Island. the sealers right Whales rarely visit this Island, came on board and took in sail standing Northward with the Larboard tacks aboard. while the boat was ashore the ship was carried by a strong current to a short distance of the land. and had not a breeze sprung up she would have gone ashore in a short time, and now for 42. —

January Wednesday 31, 1838
Began with fresh breezes and thick weather. at 7 made close reefed topsails and set the Mainsail Middle and latter part Moderate breezes from the N.N.W. Lat by obs. 43.46. Long probably 39. E. saw fin back

February. Thursday 1. 1838

First part hazy ~~with~~ a fresh breeze from the North middle part rainy. latter part clear with the wind from the S.S.W. at 7 took in sail as usual, at 12 midnight hove ship too after running 6 hours to the northward.

Friday 2
First part clear with moderate breezes. middle and latter part same, wet Hole, course N.E. 3/4 pt vari E. Lat 43.55. Long 39.15 at 7 close reefed the topsails

Saturday 3
These 24 hours Moderate Weather in the ~~morning~~ afternoon saw several fin Backs and, broke out Main Hatch for water at 3 P.M. raised right Whales lowered for two Whales off Lee beam but could not see them from the boats after lowering. the Whales appeared to be wild cutting about in different directions. came on board and shortly after lowered again the whales came up astern of the Ship the waist boat pulled up to them and when within a Ships length one of the Whales settled. the other remained up long enough to have gone on and struck him but the boat header ordered the Men to heave up. at the same time Mr Christian Larboard boat lowered, the whales came up again soon after and the Larboard boat was going on to the whales when they milled in favor of the Waist boat as the Larboard boat continued pulling the Waist boat hove up. the L.B went up along side of the Whale + shot ~~the bow of the boat~~ ahead of the whales head, the boat steerer darted and struck his head. the second Iron struck the bunch of his neck. neither fastened Chased Whales. came on board. took in sail. had a jaw +

February Sunday 4. 1838

These 24 hours fine weather. At 8 A.M. lowered away for Whales going to windward did not succeed in getting up with them. made a signall for the boats to pull out ahead of the ships for a whale coming to windward, which they after soon sighting the Starboard boat succeeded in getting fast. Waist boat lowered and got fast with one iron. the whale then sounded and got both lines. Mr Christian S.B. went on to Mast S.B. the whale came up and was soon killed by the loose boat the iron from the Waist boat drawed and had not several turns got round the Stan boats line should have lost the waist boats line. got the Whale along side cut him in it appeared to be almost a day 1 Kin. Mr Powers killed the whale. Saw several whales to windward — Opened beef and pork, tacked Ship every three or four hours. at 7 double reefed the topsails and furled the Main Sail Lat 42.46 Long 39.35 Long. C.

Monday Tuesday 5. 1838

First part thick and rainy at daylight cleared with a moderate breeze. called all hands and lowered away Larboard and Waist Boats for whales on the weather bow The Waist boat got fast to a very large whale. got one lance at him as he rolled over without doing much execution another whale came up with the fast Whale which the S.B gave chase too without success. the fast whale then ran to leeward towards the S. Boat which had lowered the whale going fast that boat did not get fast. Shortly after the Whale sounded, got the S. Boats line but owing to some negligence did not get boat on, lost Whale line. 2 Irons. drag. chased the whale but could not get near him. the L. B. went up to a whale which settled as soon as the boat steerer stood up. came aboard got breakfast, lowered two boats — no Luck — came on board and talked about our misfortunes. Coming on to blow took in sail at 7 P.M. hove Ship to raining hard all the middle and latter part of these 24 hours. Lat 42.44 —

February ~~Wednesday~~ 6: 1838 Tuesday

First part rainy. Moderate breezes from the North East. all Northerly winds are accompanied with thick fogs in this Latitude. at daylight Cleared with the wind from the Southward Middle and latter part fine weather. commenced trying out blubber at 6 A.M. at 9 P.M. had the Cooler nearly full, hove all the blubber out the blubber room and split the horse pieces in two and hove the inside part over board. a fine feast for the Albatrosses. Saw two right Whales in mooding and several Sul-phur bottoms during the day. as the Whales have been working to the Southward and eastward we shall go as far east as 42, and then work to the westward again. Lat 42,48. Long 40.4 East

Wednesday 7—

These 24 hours foggy – rainy & blowy – at 4 P.M. got through with trying out 15 Barrels of oil the produce of blubber enough for 100 Bbls. the fruits of one months labour, sad doings. and poor pay for exposure to danger & suffering, such as Whalemen past through.

Thursday 8—

These 24 hours Commenced with fresh breezes at daylight broke out and stowed down 15 Barrels Oil on the Starboard side of the After hold. A cask of Apples was opened and apples taken out and carried forward. which caused some hard words from Capt Pease – at 7 moderated made sail, stood eastward until noon when we tacked ship and stood to the westward. no whales seen to day. latter part rainy Close reefed topsails stood whole watches. Some symptoms of being homeward Bound

February 9. Friday 1838

These 24 hours Calm until noon when a light breze sprang up from the Northward. Looking out for water between deck in after hatchway — latter part squally saw'd topsails

Saturday 10 —

First part blowing fresh close reef'd topsails at 7 Sat the Fit and Mainsail. at 9 A M. Shook two reefs out the topsails. at 2 P M the leach of the ~~Fit~~ Sail ~~broke~~ put a Stopper on the leach and Sat it again. at 6 P M double reef'd the topsails. 41.45 S Long 40.15

Sunday 11 —

At 1 A.M. Starboard Watch on deck the gale increased accompanied with fog & rain, Clewed up fore and Mizen topsails & Mainsail. and close reef'd the main Topsail. at 5 A M reef'd the foresail. at 10 A M Sat the Mainsail. hauled off for a Spell. Set close reef'd fore and Mizen Topsails. at 1 P M. Shook a reef out the topsails and Set the Fit. latter part Calm. the Ship heading N N E with Larboard tacks aboard. Long 39.30

Monday 12 —

These 24 hours Moderate breez and foggy Made all Sail at daylight. at 7 P M double reef'd topsails. at 11 P M blowing fresh.

Tuesday 13 —

These 24 hours began with fresh breez'd close reef'd fore and mizen topsails. at 12 Sun'd the Main Sail and Fit, at 1 Close reef'd Main Topsail. at 3 P M Moderated some loos'd the main Sail the wind has held here from North West to North East for several days with thick fog and occasionally rain. Watch and watch nothing doing. no whales have been seen this week past. Latter part a gale. Split the fore Topsail and parted the Main Jack. Tun the sail out the Starboard leach rope. Lat 43.46

[grinding shells of a coral Species]

February Wednesday 14 1838

At 12 Midnight furled fore and Mizen Topsails. at 7 A M made double reefed fore and Mizen Topsails after repairing the fore topsail on the yard Sat the Mainsail and Sit. the Northerly winds still hold on blowing a constant gale with short hills of a few hours. at 7 P M close reefed fore and mizen Topsails. at 9 close reefed the Main, furled the Mainsail and Sit at 10 P M furled the Mizen topsail. blowing a Severe gale with a heavy sea run.

Thursday 15

The gales from the Northward still continue with a variation of one or two points in 24 hours and attended with foyl and rain. our Latitude to day is probably 45° South and Long 36.40 at 8 A M Sat the Mainsail & Sit and Sat close reefed Mizen topsail. at 8 P M furled the fore and Mizen Topsails. Sit & Mainsail.

Friday 16

First part blowing fresh at 7 A M wind backed in to the West wore Ships and made double reefed topsails. Mainsail and Sit. Wind moderate with a heavy head beat sea. until 9 P M when the sea went down. Latter part light squalls of wind and Calms Thermometer 40. Lat 45° 4 — time forced to go

Saturday 17

First part Calm with occasional squalls of wind & rain. at 2 A M wind hauled to the North again, wore Ships. at 3 A M made single reefed Topsails Mainsail and Sit going N W & W fine. at 7 double reefed fore and Mizen Topsail. at 8 Close reefed Main Topsail furled the Mainsail at 9 Experienced a very heavy squall of wind and rain. hauled down the Sit. the Starboard Cat head broke off hauled up the foredail close reefed fore Topsail. furled the fore and Mizen. Topsails. and at 11 furled the reefed foretail. the gale increased rapidly until 12 and at 8 P M began to abate. at 4 P M wore Ships.

wind West

February Sunday 18. 1838

The gale increased again from 1 A M until 8 A M when it blew a hurricane, during a lull in the morning the foresail was set but was obliged to hand it again in a short time. the sea ran very high several broke over the ship. towards night the gale gale abated and the sea went down. the oil in the main hatch got adrift Lat about 40.10

Monday 19.

First part fresh breezes from the W. N. W. at 1 A M made close reefed fore and mizen Topsails, at 7 had single reefed Topsails, Main sail & Jib set. at 8 A M fine weather sent down Main Topsail yard sowed up the rips and put a band a cross the sail under the close reef, beat it again. sent down fore topsail. beat another, manned the Jib on the boom. hoped in the fore Topmast Staysail. at 2 P M hoped Main top Gallant sail at 8 P M double reefed Topsails. furled Topgallant sails. at 11 A M wind hauled to the N. W. wore ship heading N W & W. 3 pts western variation.

Lat 43.35. Long 36.36

Tuesday 20

First part light breezes and thick, wind N by W set hole and bedded the oil in the main hatch, Middle part a heavy mist, and light winds at 4 P M. wind hauled suddenly to the S. W. wore ship, course N W. latter part wind varied two or three points from W S W to West.

Wednesday 21

At 2 A M experienced a heavy Squall the ship came up N W. Close reefed fore and mizen Topsails double reefed the Main and handed the Jib. wind backed ship off again two and three points at 7 shook a reef out of fore topsail, at 10 A M set the Jib double reefed fore topsail at 1 P M wore ship wind N W by W at 2 close reefed the Topsails and then furled the fore and Mizen Topsails, hauled down the Jib carried away the Shank of the Jib boom. handed the Main sail. reefed fore sail at 6 wore ship again heading N E & N. Lat 43.06.

February Thursday 22 1838

At 3 A M made sail with the wind from the N W by W. at 1 P M wore Ship to the westward heading W. Shortly after fell off W S W wore Ship again at 8 P M heading N W E. Squally during the day. Broke out for a barrel of Flour

Friday 23

Fresh breezes from the Westward, double reefed Topsails. The Larboard Main Jack parted and tore the mainsail out the leach rope, pointed it, hauled down the Jib, reefed the Topsails anew,

Saturday 24

First part Moderate breezes, shook all the reefs out the Topsails, roped in the leach of the Main Sail and set it. sent the Jib in and new roped it and bebent it. put a new foot rope on the large Main Sail. single reefed Topsails at 2 P M.

Sunday 25

First part squalls of rain. at 2 A M double reefed the fore Topsail. at 8 Cleared fine weather and a steady breeze from the N W. made all sail — Lat by Obs 40.19

Monday 26. ——

At daylight wind hauled to the S W and at 7 to the S S E. All hands. sent up fore and Mizen Topgallant mast and yards. set fore Topmast and fore Topgallant Studdingsails Course N W by N. bent the large Main sail. sent down and bent a foresail. at 10 P M the wind hauled E N E Shifted over the Studding sails. Long 33.58 Lat 39.23

Sunday 8. Strong Trades & Squally. Long 106. 07. Lat 6.58

Monday 9. Strong. Trades. Unbent the Fore topsail and bent another, repairing the Fore Topsail. Making a rolling pin for the Fisher. Long 106.48. Lat 8.11 South

Tuesday 10 Strong breezes all sail out, Net hole. repairing fore Topsail. Long 107.23. Lat 9.30. Course S by E. took up a bundle of Bone which appears to be bad. at 2 P.M. raised a large Whale off the lee beam. lowered and 3 boats went to leeward Whale came up about 1 Mile to Windward. Capt F. lowered and pulled to Windward. came aboard. pumped Ship

Wednesday 11. Strong Trades and clear. got all the bone out of the after hole open. dried & rebundled it again and stowed it back again Long 107.22 Lat 11.33. Course S by E. ½ E. Variation 8° Each

Thursday 12 Strong Trades until Noon from the Eastward and Moderate, after. Set the fore & Mizen Top Gallant Sail and fore Topmast Studding Sail, Set up the Larboard fore Top Gallant Rigging. Got up bone from the Main Hatch dried it and rebundled it and sent it below again, Long 107.29. Lat 13.42 Course S by E

Friday 13. First part Moderate. Middle & Latter part Strong breezes. got up bone, dried it and put it down again, Net hole. pumped Ship. Suppose the Ships leaks some. Long 107.29 Latitude 15.23. fore topmast Studd Sail out

Saturday Dec 14 1839. Fresh Trades. finished the bone and stowed it down. got a Lunar Observation. washed off the decks. pumped ship. suppose the leaks quite bad about her head or Starboard fore Channels. Long 107.30 Chronometer. Lunar 107.09. Lat 17.33. took in top gallant sails

Sunday 15. Squalls of wind & rain. Long 107.48 Lat 19.34

Monday 16. Fresh Breezes and Squalls of ~~wind~~ rain — finished the old Fore topsail, Lat 21.50. Long 108.21

Tuesday Fresh Trades until 4 PM when it moderated. Wet hole — pumped ship. set top Gallant Sails. at 4 PM wind hauled to the southward Long 108.54. Lat 23.50 . B. Swing boat

Wednesday 18.

Tuesday 17. Moderate breezes from the SE. mended the old fore sail and served the foot of the Fore Top Gallant Sail Course S by E. Long 109.24 Lat 25.4

Thursday ~~Friday~~ 19 Moderate breezes at daylight made Easter Island ahead about 30 miles distant. Started water. at half past one about 6 miles distant. lowered the boats with a few pieces of Iron Hoops and two shaped Tubs of Scraps. pulled into the bend on the Northern part of the Island and traded with the natives who swam off about one mile or more with their potatoes and yams. two small canoes also came off. with two men in each. they were of very slight build and furnished with outriggers to keep them from capsizing. the yams and potatoes were put up in flags marked round with small line. some of the natives were very much tattooed. some slightly and some none at all that I could perceive. a few of their women came off who appeared much whiter than the men in fact were pretty=- the men generally are a light copper colour, some quite white and many of them evidently half bloods with a decided European cast of Countenance — Scraps appeared to be their most object of desire. Knives were also valued highly — Cotton Cloth for tapseas — they are a thievish set and one stole Mr Fishers Jacket which he were fortunate enough to recover again, some brought small rudely cut images off & from the value set upon them suppose to be their house hold gods. the Island appears to be well cultivated and thickly populated. our Kanaka's say they understand some of their language which is evidence that they came from the Sandwich

Friday Dec 20. 1839

Laying off and on all night with a light breeze. called the Watch out at half past 5. AM. got breakfast and sent three boats ashore with Scraps. Iron Hoops &c and traded for Yams & Potatoes sent them in again at 11 AM and returned at 2 PM with a full load. got a few Bananas. some Nets and fish Lines also some of their Carved images. those people who remain on the shore appeared to be clothed. some in white cloth put away and ran round the NE part of Island and hauled on a wind on the South side. the land along shore appears to be well cultivated on this side also. got some observations and the Chronometer differs about 10 Min. West — Wet. hole this Morning. one of the Islanders got into the 2d Mate Boat and wished to come on board but as that was our last turn ashore he was not permitted to come off — Close hauled all night with the wind SE. Spread out the Potatoes to dry

Saturday 21. Strong breezes from the ESE. & SE. made a Potatoe Pad over the Stern. Saw Sperm Whale breaches off lee bow. ran off about 5 Miles. Whales came up on the weather bow. goin fast to Windward. at 4 PM broke out for Bread. Long 111.12 — Lat 27.54

Sunday 22. First part Calm. Middle part Moderate breezes from the ESE. & E. Long 111.06 Lat 29.09. Saw a Breaches on the weather bow ——— latter part Calm

Monday 23. Light breezes from the Eastward and SE. Scraped the grass off the Starboard side the Ship, hung the yards upon the Spare over board making Oyster. Lat 29.54.

Wednesday 8 Fresh Breezes from the Westward took in the fore topmast studding sail and Set it again at 7 P.M. took in fore & Mizen Top Gallant sails Long 85.32. Lat 37.1

Thursday 9 Fresh Breezes from the West & West. heavy swell on. Long 83.27 Lat 37.58. at 7 P.M. Began to blow fresh double reefed the Topsails and furled the Mainsail Set carried away the topmast studding sail Boom taking in the sail,

Friday 10 Gale moderates. Shook a reef out of the topsails and set the Main sail & Sib. Long 81.30. Lat 39.1

Saturday 11 at 2 P.M. Raised a Whale lowered and struck him to the Waist Boat & the Crasher Killed the Whale, got him along side and put 2 fluke chains on. 6 P.M. Took in sail. Wore the cutting falls No obs. long about 80. Lat 40 south

Sunday 12. Moderate breeze from the North West. foggy and a heavy Swell commenced at 4 A.M. to cut and got him all in at 11½ A.M. Bailed the Case and cleared the decks in the afternoon. wore ship to Bail case and wore Back again at 4 P.M. — ¼ Watches. Wind hauled E S E at 9 P.M.

Monday January 13. 1840. Fresh Breezes from the East and South. Commenced trying out head. Started 4 Bbls flour & 4 Casks Bread. got through with the head and began on the Body at 7 P.M. Made double reefed Topsails. Steering by the wind Set the Watch at 1/4 of 7 P.M. Starboard's first Watch

Long 78.30. Lat 40.41

Tuesday 14 Fresh breezes from the South Made whole Topsails and finished trying the Whale at 12 Med 54 Bbls part of his blubber being dry did not yield oil according to our expectations when we took him along side Long 76.44 Lat 40.45 Stowed off the blubber down. Watch below at 2 P.M raised a Sperm Whale close to the Ship and shortly after several more off the Lee quarter. 5 Boat lowered first. wore Ship and towed the other boats very rough soon came on board again. took in Sail

Wednesday 15. Moderate Weather Cloudy Sent down Main Top G. Sail and repaired it & reeved it — beat the old fore Topsail and the old Main Sail. broke out for the Slop Chest — put the Boy Godfrey in the Rigging and flogged him for being Lazy & Sea Sick, at 6 P.M saw Land off the Lee beam bearing East 70 Miles distant Long 75.50. Lat 40.00 —— Saw Grampus and Porpoises ——

Thursday 16. Stowed down about 50 Bbls oil in fore hole, Land in Sight. Standing off Shore

Friday 17. Broke out and Coopered the forehand tier of Oil between the fore & Main Hatch found it had leaked out about 7 Bbls from 4 casks, Stowed off and Cleaned the decks. Blowing fresh from the Southward and a heavy Swell, Standing off Shore. Lat 41.33

Saturday 18 First part blowing fresh at noon more Moderate Set Whole topsails on the Ship. Saw the Land in the Morning about 40 Miles distant Lat 41.55 wore Ship off Shore at 7 A.M and wore in again at 7 P.M after taking in Sail

Sunday January 19 1840. Moderate breezes from the South and S West. latter part clear. Land in sight. by observation 90 Miles distant which is ~~much greater distance~~ more than the true distance, took in Sail as usual and worked off the land at 7 P.M.

Monday 20. Pleasant Weather with a light breeze from the N N W. at 7 Began to rain latter part clear in sight of the land

Tuesday 21. First part pleasant latter part squally from the Northward standing in and off shore Lost one new Whaling on the Mizen Topmast Rigging Lat about 41. 55-

Wednesday 22 Moderate Weather with a heavy Swell raised Whales at 8 A.M. lowered and struck one to Mr Fis. boat after Capt Fisher had struck and drawn. 3 Whales Bull Whales. W. Bow ~~Boat~~ chased after the blood but did not get on. got the Whale along ~~side~~ wore ship and tried to cut him to leeward. head sails aback. Main Topsail Hauled up. Mizen topsail haled up. Main Spencer and Mizen Sail ~~lost~~ Could not cut. wore back again and hooked on aneo. Cut his head off and got his body in Dark Lat 42 S. Land about 50 Miles distant. Wind West

Thursday 23. Moderate breezes from the South and some Swell. after some difficulty got hooked on to the head got his junk in and tailed his case. Made sail and stood off Shore — Employed heaving. Cleaned the decks. Caught an Albatross with a label. Ship Orbit

Friday 24. Moderate breezes and cloudy off the Island of Chiloe. saw several schools of Black fish. got through with trying the blubber washed off at 7 P.M. double reefed the Topsails. latter part calm

Saturday 25. Moderate breezes from the North ward Land about 30 Miles distant, standing off shore. latter part fresh breeze and a heavy Swell took in sail as usual — Made a large strap for weaving through the heads of Whales —

Sunday January 26 1840

First part Rainy and foggy. Latter part Clear and Calm Made no Sail to day, the Cabin Boy while taking breakfast put the deer in Round House with the Log Muscle. Who bit the deer so bad that she was obliged to be Killed, our Chronometer is out of order and we Must depend upon Lunar Observations and dead Reckoning for the future—

Monday 27. Broke out and Stowed down our oil in the fore hole ~~filled up~~ got enough to block off = Blowing fresh from the Westward. Land in Sight, double reefed the Topsails—Broke out for Beans. Rice. Meat &c. Put a cask of water in the tank stowed the Flour and bread out of the fore hole and put it in the ~~Bloody Butch~~ got a Lunar. 75:02— Lat 43.2

Tuesday 28. Blowing fresh. Made single reefed Topsails heading Northerly & in one tack S&W in the Other took in Sail as usual—

Wednesday 29. Blowing a Gale Made Sail and took it in again at 7 PM more Ship heading North by East Lat 43.04 Wet hole and ~~pumped~~ Ship—

Thursday 30. Heavy Swell, no Wind saw the Land fitted the cutting Straps anew—took in Sail

Friday 31. Calm, Land in Sight. Put some Point patches on the fore topsail. fitted Staysail Remnants. Lat 42.38. saw Several fin Back Whales—

Saturday February 1. 1840.

First part blowy Made double reefed Topsails took them at 8 A.M when it rained at 2 PM made Sail again wind out west. S.West. Lat 42.54. Long 70—
Took in Sail at 7 PM

Sunday 2. Made Sail and took it in again Rain and Wind. at 6 PM had a sudden shift of wind from North to South heavy Swell

Monday 3. heavy Swell broke out for water and at 8 A.M made Sail and Kept Ship West. Lat 42.17. Land in Sight. at 2 PM saw 3 Sperm whales lowered and got two to S. & Larboard boats. Waist & Bow Boats got fast and drawed. Iron broke got them along Side took in Sail more Ship heading North

Tuesday February 4. 1840. Called all hands at daylight at 3 A M wore ship off the land Starboard tacks aboard. at 5 wore back again and hooked down to the whales at 8 P M had them both in. lashed the heads solid and wore ship off shore. land about 15 Miles distant. wind blowing a gale from the northward with some rain. at 1 P M took in the foresail and and Set the Fore Spencer sent after lashings on the heads watch below in the afternoon — two men got a fighting in the Forecastle. Joseph Whiten and Lewis Antonio — sent down the Mizen to repair it

Wednesday 5. Gale blowing fresh with squalls of rain at daylight a heavy Sea rolled into the Larboard boats and filled ~~them~~ half full of water and carried away the bow boats forward davy. the boats warp being ~~made~~ fast to the fair leader held the boat up. wore ship. at 2 P M commenced cutting on the heads. & after cutting off the case + Junk the Jaw part of the head got adrift and went across the deck came back again and broke in the bulwarks & lash rail lashed it up — at 5 P M went to work on the other and kept to work all night. boiling — wind Secodenated (unwell)

Thursday 6. First part pleasant at 5 A M made sail at 7 began to blow on from the W N W at 11 A M took in fore and Mizen Topsails. squalls of rain. got the heads over board and cleared up decks saw the land in the Morning 30 Miles distant and off the Paps. finished trying at 12 midnight. heading S E. Calm

Friday 7. First part moderate and cloudy. Middle wind out W N W. latter part rainy and blowing a gale bent the close Mizen again, at 7 took in the foresail lashed the oil solid. pumped ship. wet hose this Morning Standing off Shore heading S W by W

Saturday 8. First part blowing fresh and a heavy Swell repaired bow boats davy. at 9 A M made double reefed Topsails. Lat 42. Land in sight at 3 P M. made whole Topsails. doing various jobs about the Ship. broke the gunwales of bow & waist boats last gale by Shipping a Sea, double reefed Topsails

Sunday February 9th 1840

First part cloudy & pleasant
Mr Charles raised Whales on the Starboard beam. Heading S.W. with the wind N.E by N. Made all Sail got Breakfast and lowered all four boats. Starboard and waist boats got a whale each gotten along side and cut in by half past 4 P.M. 40 Bbl Balls. 6 hours cutting and at 7 P.M had the cases overboard Called about 20 Miles distant and the boats bearing about S.E

Monday 10. Moderate Weather and Cloudy. Let the works again and cut up the Tanks. got Shooks. Hops and heads up and set them up. Stowed down eight Pipes of oil between decks on the Larboard side the after hole. Done Ships at half past 7 P.M. and Set the watch at 8 P.M.

Tuesday 11. Began with pleasant weather wind having hauled out to the S.S.W. at 8 A.M raised a Sperm Whale off the Larboard beam and one off the Starboard beam. lowered two boats to Windward and two to Leeward. Mr Charles and Capt Fisher to Windward & got a large whale. the whale to Leeward went off after the one to Windward was struck. got him along side and cut him in at 7 P.M had his case overboard, wind & rain the latter part

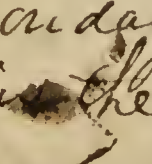
Wednesday 12. In the morning rain — cleared at 7 A.M. at 2 P.M rain and cloudy — winds from the Westward and from the South, raised whales in great numbers going Southward along the land as all the other whales we have seen appear to go. lowered all four boats. Mr Fisher struck when the Whale took his line. came on board at 1 P.M lowered again in a rain squall Mr Charles darted at a large whale but did not fasten Came on board and took in Sail Larboard tacks on board heading off Shore. Stabed the Works. Coiled a new line. Setting up pipe Shooks

Thursday 13. Fine Weather. Cloudy. at daylight raised a whale off the Larboard beam. and saw great numbers through the day. lowered three times and gallied them. lowered three boats to windward last time whales went off to Windward last 20 Miles off. Setting up Shooks

Friday February 14 1840 First part moderate breeze from the N.W.W. Standing off shore at 10 stood in for the land at 2 it was calm and continued so for the night, cooled the works down at 1 P.M. had a light shower of rain. Coopered and stowed down 6 pipes of oil on the starboard side the fore hole between decks, double reefed topsails, land about 15 miles off lashed the oil up

Saturday 15 First part moderate breeze from the S.W. wore ship and stood off shore shook the reef out the main topsail washed off decks, at 4 P.M. Mr Fisher raised whales off the lee bow heading in for the land, lowered all four boats Mr Charles got fast and parted his line. Mr Fisher fastened with his second Iron and the bowling drawed & went over the first Iron. Mr Shaw went up to a whale but did not fasten, Capt Fisher got fast to the bow boats whale and drawed. Mr Fisher hooked up the line of the fast whale but lost it with his boat hook, 2d Mate got the line but did not bend his line to it the whale sounded again and took the line and went off. came on board took in sail and coiled a new line for the bow boat, wind moderate and out from the westward, land about 15 to 20 miles distant. thus ends a whaling scene as we only lack about 250 Bbls of being full. luck luck as we term it is discouraging. however we hope for better things for the future

Sunday 16 Moderate Breezes from the Westward. Saw number of Fin Back & Hump Back Whales, foggy part of the day and at 6 P.M. had rain with the wind from the South ran in within 6 or 8 miles of the land wore ship and stood off shore double reefed the Topsails



Monday 17. Coopered and stowed down 12 pipes of oil in the fore and after hole, at 11 A.M. raised a school of Sperm Whales ahead standing in for the land down boats and pulled for them without success. calm and light air all these 24 hours. easterly. blocked off the fore hole except the hatch = we can take 450 Bbls more, did not take in sail

2 Tuesday 18. 1840.

Calm untill 4 P.M. when it breezed up from N.W. about 20 miles from the land at 7 double reefed the Topsails and Stood Off Shore. Stowed Of the blubber from with head and flenn and cleaned Ships. Lat 42. 26 lost hole — at one A.M. 19th furled fore and Mizen Topsails

Wednesday 19. Began with fresh breezes and rain at 8 A.M. Moderated made double reefed topsails and Stood in towards the land at 5 P.M. tupped too with Larboard tacks aboard, Saw a School of Blackfish took in Sail at 7 P.M. Killed a Pig

Thursday 20 A Gale of wind from the N.N.W. Land at 6 A.M. was about 25 Miles off. Made fore and Mizen Topsails and at 8 A.M. the wind freshened and veered N.N.W. & took in fore and Mizen Topsails, Pumped Ship and talked about Whaling our voyage and getting home &c.

Friday 21. Morning rainy wind from the North. at 9 it moderated Made sail Stood in for the Land saw five Backs and humps backs Stood Off Shore and at 7 P.M. took in sail. saw a large School Blk Fish wind from the Southward all the latter part

Saturday 22. Fine weather with the wind from the South sent down the Main Topsail and bent another to work on the Main Topsail. Stopping in new cloths &c standing Off and on the Land

Sunday 23 A Gale of wind and rain untill 5 P.M. when it Cleared

Monday 24. Fine Weather and light breezes from the South finished the Main Topsail and bent it for the fore mended the Mizen Topsail and bent that. got a Lunar observations. the Chronometer & Lunar agree very well

Tuesday 25. Good Weather & Cloudy. 2d Mate raised Whales. lowered Mr Fishers Gig fast and his Iron drawn & Broke. came on board and lowered again at 1 P.M. when Capt Fisher struck and turned up a large whale got him along side at 4 and cut him in by 8 P.M. Ships began about E or E by S — 12 or 15 miles distant

Wednesday February 26. 1840
Blowing fresh and rainy. cleared the deck. heading off WSW with starboard tacks on board

Thursday 27th At daylight called all hands Moderate breeze from Westward made sail and kept her off for the Land when the man at Mast head sang out for whales luffed to a Larboard and then wore ship again on the other tack the whales being on our Larboard quarter heading as we steered. put out the fires which had been started in the works and lowered away S. L. & W. Boats the bow boats line not being coiled, Larboard boat got fast and the having run his line out the waist B. bent on. Mr Airy S. B. also fastened to the whale when he sounded and took the line and after sounding several times at last took the waist boats line. and went off with 620 fathoms of line and 6 drugs. pulled after him but several heavy squalls of rain & hail coming on lost the sight of the whale. in the mean time Mr Fisher had got up to him and got a slight lance at him. and the bow boat had lowered and pulled to windward Mr Fisher got stove slightly fastening to the whale the waist boat leaked very badly, the steward steered the Starboard boat to day — Capt stopped on board — came on board and coiled down our last three Lines — double reefed the Topsails — it was very rugged in the morning and a tremendous swell not fit weather to lower boats for a whale Capt F. would have put away for port but we could not weather the land — at 4 P.M. the fore Top sail sheet block strap parted, in a very heavy squall clued up fore & Mizen Topsails. at 5 wore ship heading off land SW & SSW — land about 16 Miles distant. lost four irons — commenced boiling again and cut up the trunk Mr Fisher repaired his boat Starboard watch on deck, latter part a gale and squally. Judged we we were in about 43.00 South Lattitude

Friday February 28. 1840. Blowing a gale of wind from the W N W with squalls of rain at 8 A M cooled down the Works and Larboard watch below. heading off Shore with Starboard tacks on board: no Tea nor Coffee we have now about 10 Bbls of water and shall make the best of our way for port when the wind changes at 4 P M Started the works again and made double reefed Topsails heading from N W to North Larboard tacks aboard latter part squally with some rain.

Saturday 29. Clear weather untill 4 A M with the wind from W S W after that baffling made whole Topsails, finished trying at 7 A M. washed off decks bound in for Talcahuana: double reefed Topsails at 9 A M

Sunday March 1. 1840
First part moderate breezes remainder fresh breezes, at 11 A M lowered for Whales but did not Strike. heavy swell. all sail out Lat 41.14 course N W

Monday 2. Strong Gales from the South. took in fore & Mizen Top gallant Sails. coopered and stowed down 52 Bbls oil in the Larboard side after hole. coopered & stowed down 25 Bbls Beef & Pork, cleared the decks &c. at 7 P M double reefed fore and Mizen Topsails and single reefed the Main. took in Main Top Gallant sail & furled the Main Sail. going off about 8 Knots course N 1/2 W. 1/2 pt var E.

Tuesday 3. A strong gale from the South untill 8 A M when getting under the land it moderated; at 5 A M an heavy sea stove in the gangway and washed it overboard At 12 Med. found ourselves 30 Miles from land Course since 4 A M about N E. ran off wide from her course last night, westerly mended the sheathing on deck, rove a new Main Topsail Clueline and done several small jobs: bent the larboard chain at 6 P M the Paps of Bio Bio about 6 Miles distant, bent the large Mainsail and at 7 P M stood off Shore. double reefed the Topsails, while bending the mainsail James Boston fell of the S. Yard Arm overboard without much injury-

Wednesday 4. March 1840 Light airs and foggy these
24 hours at 5 A M saw ship and stood in shore at
12 Med was 16 Miles from the land at 5 P M saw
the land saw ships off shore at 8 P M wind off shore
stood on the southern tack
Thursday 5. at 5 A M tacked in shore with the wind
out East which soon veered to the Northward at 10 A M
Braced round the yards and went in shore for the
entrance at 7 P M was within 4 Miles beat a fore
top Gallant Sail and Sl Anchor. got the anchor
off the bow and hauled up the chain
Friday 6. Got up to the anchorage and found the
following. Capt Pitman Nantucket Alemina. Lady of Edg.
China & Desdamona Dillano & Pinocey New Bed ford Barque
Hector. Norton 2500. 21 Mos. A.B. Bark Equator Fisher 13
Ship Hanpronier. London. Locke 1700. took in wood
and water. Carened the Ship and coal tared her
bends. 12th Wm Penn of Falmouth 41 Mos 1200.
gave Liberty — 4 days all the Ships have left except
the Englishman. U.S. Ship Constitution. arrived
here the 13th has given her men liberty here also
a number of Merchantmen. got on wood and
water. blacked the bends. got the recruits on board.
got under way the 19th and anchored under
Virginia Island at the mouth of the bay. Calm
clued up the sails but did not furl them
Friday 20. Got under way and stood out
to sea. stowed the anchors. took in top Gallant Sails
blowing fresh. at Sunset took in sail
Saturday 21. Made sail saw great numbers of
Fin Backs. steering North. wind strong from the
South.
Sunday 22 Blowing fresh. Steering N by E Lat 34 10
made Whole Topsails at 1 P M
Monday 23. Fine weather. Juan Fernandez in sight
set up the forge. put new coats around the pumps. done several
jobs Blacksmithing. several men sick with the Lady's fever
saw a fin Back & Porpoises.

March Tuesday 24 1840 Fine Weather with the wind light from the South. Endeavored to stop the leak on the Starboard bow. Mended the old fore Topsail and bent it the fore topsail Lost up to Ashore. Blacksmithing at Sunset double reefed the Topsails &c Laid in Light
